

TLILIC0003 Licence to operate a forklift truck

HRWL Forklift Licence

This course is designed to cover the skills and knowledge required to safely operate a forklift truck in a safe working condition. Additional skills covered are risk control methods, start up and shut down procedures, weight and positioning of loads, hazard and risk control and all relevant legislation and regulations required to operate a forklift truck, including South Australian requirements.

ENTRY REQUIREMENTS

Students must be 18 years of age to enrol. All applicants will undertake a short assessment to determine whether this is the best course for their needs, including language, literacy and numeracy skills. Where learning needs are identified, LITA Training may offer you additional support or refer you to a more suitable course.

COURSE HIGHLIGHTS

- Gain operating principles and methods
- Enhanced career prospects
- Improve communication skills to effectively collaborate with other workers
- Identify hazards and implement safe operating procedures
- Gain a nationally accredited Statement of Attainment as well as a national High Risk Work Licence (HRWL) to operate a forklift

The student's tuition fees are as published and are subject to change given individual circumstances. This nationally recognised Unit is delivered by LITA Training RTO Number: 0577 which is responsible for the quality of all services and the issuing of a Statement of Attainment to successful candidates. LITA Training is also an approved SafeWork SA provider and is responsible for the issuing of a Licence to Perform High Risk Work to all successful candidates. This unit of competency provides the skills and knowledge to the industry standard. We actively tailor training for people from diverse backgrounds, including those with disabilities, and encourage all to apply.

WHY LEARN WITH US

01

INDUSTRY RELEVANT

Your industry shapes the courses we deliver. Our training programs have been developed with your people and their specific industry challenges in mind.

02

EXPERT TRAINERS AND ASSESSORS

Our staff have current on-the-job experience, bringing this into the training program to offer real industry training based on current industry trends. All trainers/assessors are qualified forklift operators and hold a current Licence to Perform High Risk Work.

03

EXPERIENCED SUPPORT TEAM

We offer in-house support and have also teamed up with external experts to ensure that you are fully supported to succeed.

COURSE ELEMENTS

- Plan work/task
- Prepare for work/task
- Perform work/task
- Pack Up

On successful completion of this course, the student will receive a Statement of Attainment that acknowledges their attainment of a nationally recognised Unit of Competency. You are encouraged to progress in your studies: you will gain Credit Transfer into other accredited courses and full qualifications for this unit of competency.

On successful completion of the National Assessment Instrument (NAI), the student will receive a Licence to Perform High Risk Work, allowing you to drive a forklift truck.

AM I ELIGIBLE FOR A GOVERNMENT SUBSIDISED PLACE?
